

POC

1st Perspectives on Oscillation Control

2019

1st Perspectives on Oscillation Control (POC 2019) will be held a workshop during two days, November 7-8, 2019, at the Institute of Physics, University of São Paulo. POC will be a workshop about dynamic behaviour and interdisciplinary applications. The workshop will honor Professor Dr. Iberê Luiz Caldas, he is one among the pioneers in Nonlinear Dynamics and Physics of Plasma.

Homage to Prof. Iberê Luiz Caldas on his “70th Birthday”

Dr. Iberê is Professor at the University of São Paulo - Institute of Physics since 1973, he has expertise in theoretical research on Plasma Physics, Dynamical Systems, Instabilities and Turbulence in Magnetized Plasmas, Chaos in Hamiltonian and Dissipative Systems, Electric Circuits, Mechanical Systems, Complex Systems such as Ecological and Neural Networks.

Dear Professor Dr. Manfredo Harri Tabacniks, the POC 2019 organizing committee has the honor of inviting you to compose the opening table of the workshop.

Opening session: 09h00min – 09h30min

Date: 07 November 2019

Local: Adma Jafet Auditorium

Welcome to POC 2019!

Yours sincerely,

Ricardo L. Viana, Antonio M. Batista, Edson D. Leonel and Kelly C. Iarosz
POC 2019 General Chairs
São Paulo, Brazil.
